BOOK of INTEREST

TABLES,

Calculated to a FARTHING ;

At 21, 3, 31, 4, 5, 6, 7, and 8 per Cent.

From £1000 to £1 for 1 Day to 96 Days, and for 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 12 Months.

With easy Directions to cast up Interest at any other Rate by the said Tables; at the End of which, are placed two Tables, one shewing the Number of Days from any Day in one Month, to the same Day in any other Month; the other discovering the several Sorts of Gold Coins with their Weights, and Values in Sterling Mony: And Tables whereby Standard Gold and Silver in Bars, are compared with the Courses of Exchange between Amsterdam and London, shewing how much per Cent. is gained or lost on the intrinsic Value of Gold and Silver in Bars, at the usual Rates of Exchange: Also some other Tables, very useful in Receiving and Paying of Monies.

The NINTH EDITION.

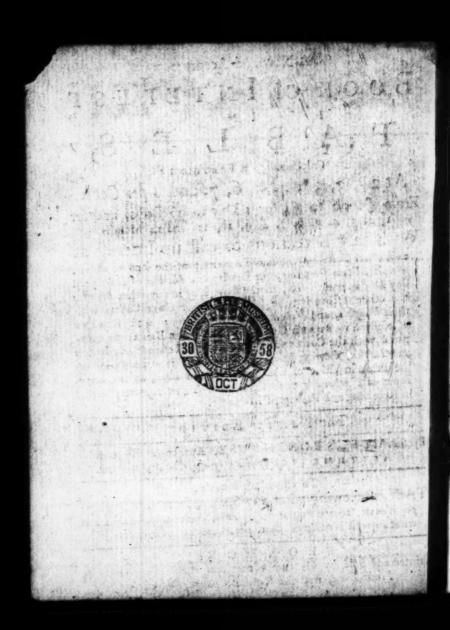

By SAMUEL STONEHOUSE, Author of the Treatife of ARITHMETIC, by Way of Question and Answer.

To which are annex'd,

TABLES shewing what any Salary, from one Million per Annum, to one Pound per Annum, comes to per Day; and what Interest is made per Cent. per Annum of any Purchase.

LONDON:

Printed and Sold by HENRY KENT, at the Printing-Office in Finch-Lane, near the Royal Exchange, MDCCLX.

TO THE

READER.

Enter the TABLE at the left Hand, and draw your Finger forwards, in a firaight Line, from the Name of the Month your Reckoning begins with, and in the Square, under the Name of the Month you reckon to, will be found the Number of Days from any Day of the one Month to the Jame Day of the other Month. Ex. gr. To know the Number of Days from the first of April to the first Day of August, I take my Finger in a straight Line from April to August, and in the Square under August, I find 122.

N.B. When it happens to be a Leap-Year, and February is included in your Reckning, you must add One to the Number of

Days found by the Table.

VIS

That Diantity of

which thy Admonty

or Standard Silve

3

1 1

Two preceding TABLES

HE principal Design of the preceding Tanks and calculated upon this Supposition, That are Cancer of pure fire Gold on Silver, is equal to one Quice of pure fine Gold or Silver; and one Quince of Gold at Silven of any Financies equal 19 and Ounce of Gold or Silver of the same Rineness; I fay, the principal Defign of the Tantes, being to hew, at one View, how to regociate either Gold or Silver to Advantage; It need not be affirmed that they are useful, neither need there be much Time fpeut in explaining them.

The Price of fine Gold and fine Silver in Holland is fixed and unalterable; the Provium, indeed, are often varying, answerable to the Demands of either Sort; and whatever Difference there may be in the Amount, confequently, proceeds from the Largenels

or Smallness of the Branium. Fon

That Quantity of pure fine or Standard Gold which (by the Laws of this Realm) denominates one Pound Sterling, is denominated at Amperdam by 35 Schillings, 6 Grotes, & Banco ; and the Par of Exchange for Gold between London and Antherdam, is 35 Schillings, 6 Grates, & Banco. And, Banco, the I how Quantity of Saver

That Quantity of pure fine or Standard Silver, which (by Authority in this Kingdom) denominates one Pound Sterling, is denominated by 36 Schillings, 3 Grotes, I Banco at Amsterdam; and the Bar of Exchange for Silver between London and Amsterdam, is

36 Schillings, 3 Grotes, & Banco.

Suppose a Merchant in London lays out £ 100 Sterling in Gold Bars, and sends them over to Amferdam; his Agent there sells that Quantity of Gold which here denominates £ i Sterling, for 35 Schillings, 6 Grotes, 2 Banco, and returns the Mony in Bills, at 34 s. 5 d. To know how much is gained per Cent. by the said Gold, look in the Table for the Price of the Exchange (34 s. 5 d.) and towards the Right-hand, in the same Line with the said Price, you find £ 103 4 s. 1 d. 2 (the Returns at the said Price of Exchange) which less £ 100 (the Mony laid out) leaves £ 3 4 s. 1 d. 2 the Gain per Cent.

But it here must be remembered, that there is Provision, Brokerage, Postage of Letters, and other Charges, to be deducted, before a true Estimate of the Profits can be made. N. B. The London Weight is about a per Gent. better than the Amsterdam Weight. The Charges in carrying Gold from hence to Amsterdam, with Insurance, Freight, &c. amounts to about 2 per Gent. A Guinea passeth current at Am-

fter dam for 1 Guilders, 11 Stivers.

Again: A Merchant here in London lays out L oo Sterling in Silver Bars, and at Amfterdam he fold for 363. 3 d. L Banco, the same Quantity of Silver which

cost him here It Sterling. The Mony was return'd in Bills, at 35 % 6d. To know how much is gained per Cent look in the Table (for Silver in Bars) for the Price (35 s. 6d.) and annexed in the same Line, is I 1 c 2 3 s. 5 d. But if the Mony had been return'd at 34 s. 11 d. the Table shews that there would have been a Profit of 23 17 . 6d. there being at that Rate (34 s. 11 d.) I for 17 s. 6d. there being at that Rate (34 s. 11 d.) I for 17 s. 6d. there being at that Rate (34 s. 11 d.) I for 17 s. 6d. there being at that Rate (34 s. 11 d.) I for 17 s. 6d. there being at that Rate (34 s. 11 d.) I for 17 s. 6d. there being at that Rate (34 s. 11 d.) I for 17 s. 6d. there being at that Rate (34 s. 11 d.) I for 17 s. 6d. there being at that Rate (34 s. 11 d.) I for 17 s. 6d. there being at that Rate (34 s. 11 d.) I for 17 s. 6d. there would have been a Profit of 23 s. 6d. the Mony we have in exchange for the Pound Sterling, the more Sterling Mony will be had for the Dutch. Ex. gr.

Suppose an hundred Pounds Sterling laid out in Gold Burs here; had yielded at Amperdam, clear of all Charges, 14 coo Guilders Banco, and that the Returns had been made in Bills at 3400 14 d. per Pound Sterling; the Table shews that there would have been a Profit of Li 14dm I d.; per Cent. But if the Exchange had been at 33. 11 d. then the Profit would have been fa 141. 7 d. per Cent, as appears from the Table?

The TABLE for Sover in Bans, may also be useful in the following Particulars.

A Bill at Sight is offered on Amfredam or Answerp, at 35.6 d and another Bills at the same Time on the same Place at Two Months, is offered at 35.6 3 d. To know how much per Cent, the Difference amounts to:

At \$ 35 3 } the Amount is \$ 2 17 11

At 135 3 } the Amount is \$ 2 17 11

The Difference is -- £ 9 14 54

If Mony had been remitted to either of the faid. Places at 35. 104 1, and return'd back at 344.716 4. To know the Profit per Cont of that Negociation:

The Difference and Gain per Cent. is £ 3 7

And this TABLE will give Answers on such Occasions, at least, near enough to shew what the Difference is per Cent.

TABLES

The Use of the following TABLES

- comes of the established to Souther, and too Lynna A Chapter Burchi-Weight & Acade to thousand

Convenience of Carriage, would have the faid Sun in Guineas; to know how many Guineas he much receive, he looks in the first Table, and finds that For reducing the common

800 is 761 Guineas and 10 m

Gold Coins to Pounds,

- 8cu is 813 Guineas and 743

And the Contrary:

following TABLES.

Very useful in Receiving and Paying MONIES.

The Use of the following TABLES.

Cara for all of it has

A Gentleman receives of a Banker 8541, and for Convenience of Carriage, would have the faid Sum in Guineas; to know how many Guineas he must receive, he looks in the first Table, and finds that

800 is 761 Guineas and 191.

So is 47 Guineas and 131.

So is 30 Guineas and 131.

854 is 813 Guineas and 75.

The fame Method must be observed in all the following TABLES.

Very useful in Receiving and Paying Monies.
